

A day with...

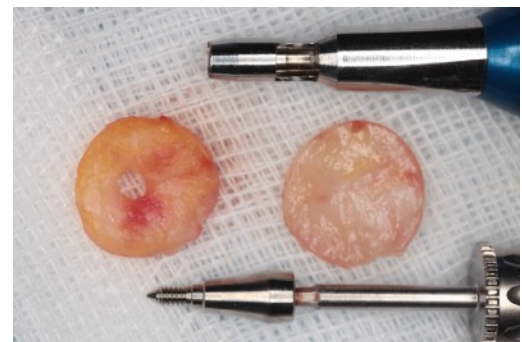

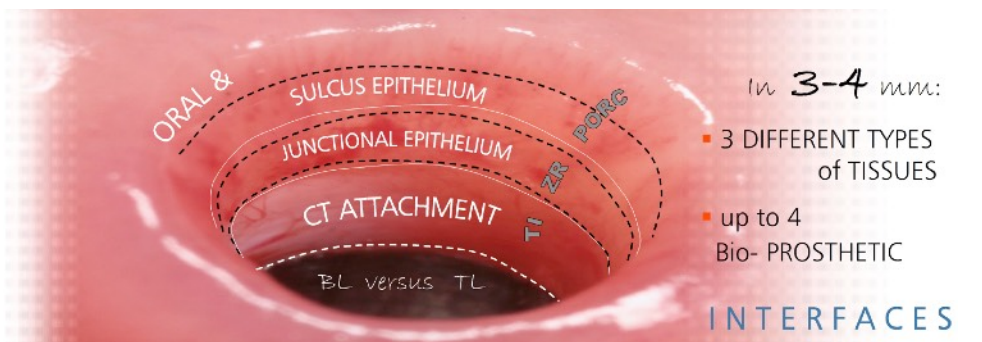

Dr Egon Euwe

Egon is an exceptionally skilled perio-plastics clinician who also manages restorative phases at specialist level. He is a pioneer in implant dentistry and has been teaching in the field since the mid 1980s.

In this one-day program, Egon will address the important surgical and prosthetic concepts that achieve predictable and lasting soft tissue outcomes. Egon will demonstrate techniques with multiple case examples and many videos, to communicate step-by-step, how to achieve these results.

Don't miss this opportunity to have an audience with this legend of implant dentistry.

Egon graduated in 1982, and specialised into the new field of oral implantology. He and Sascha Jovanovic together present much of the gIDE Master Implant Programs. Egon is a Member of the European Academy of Esthetic Dentistry (EAED), European Association of Osseointegration (EAO), and worked in the Department of Periodontology at Milan University.
