

Harry Hughes Memorial Lecture

BRINGING BACK GOLD

Understanding the value of gold as a restorative option with
Dr Randy Allan DMD

WHAT YOU WILL LEARN

- *Properties of gold that create longevity*
- *Principles of gold preparations to save cusps*
- *Inlays on molars, premolars and canines*
- *3/4 crowns and the highly aesthetic 7/8th crown*
- *Learn how to correctly cut bevels*
- *Instructions for the Laboratory*
- *How to finish gold margins down until they are impossible to detect*

Presented by
Dr Randy Allan

Facilitated by
Dr Michael Mandikos

► **Friday 19th & Saturday 20th September 2025**

Are gold restorations still the Gold Standard?

- To fully understand and appreciate the advantages of using gold as a restorative material.
- To separate reality from perception in what contributes to patient treatment decisions and why we may be misunderstanding our patient's desires.
- To develop an appreciation for the ability of cast gold restorations to be aesthetic and visually inconsequential.
- To recognise when and where is the best time to use gold as a restorative material.
- To learn the multitude of preparation designs available for long lasting aesthetic and rewarding restorations.
- Learn how to correctly prepare for bevels, pins, cement gold crowns with undetectable margins.

Conservative, upper arch posterior cast gold restorations, completely non-visible at conversational distance or even a retracted smile.

*This course will provide a certificate of attendance for 14 hours of scientific CPD points.
CeoDental Seminars courses are compliant with DBA Guidelines.*

About the presenter ...

Dr Randy Allan graduated from the University of British Columbia in 1979 and has been in private practice in Vancouver since that time. In 1984 Dr Allan became a member of the Richard V. Tucker Cast Gold Study Club of Vancouver, under the mentorship of the great Dr Tucker himself. Dr Allan continues as an active member of that study club and is also mentor of 3 other Tucker Study Clubs across Canada. He has mentored and lectured in Italy and the United States and the University of British Columbia.

Dr Allan has published articles on "The Aesthetic 7/8 Cast Gold Crown" in the Journal of Operative Dentistry, the Journal of the Canadian Academy of Restorative Dentistry and Prosthodontics.

He is Member of the Academy of R.V. Tucker Study Clubs and the Academy of Operative Dentistry and has presented extensively for these esteemed organisations.

Dr Allan is one of the last of the brilliant Gold Operators.

He is a passionate advocate for the correct use of gold restorations. We are very fortunate to have him visit Australia - Don't miss this opportunity to learn directly from one of the very finest Gold Clinicians !!

Upper 1st molar aesthetic 3/4 gold crown. Again, invisible in a normal smile

Modified DOL gold onlay with supplemental pin retention to replace large composite with recurrent proximal caries.
